

Zachary Menn, MD, MHA, MBA
Director, Value Based Care
Houston Methodist Coordinated Care

Dr. Zachary Menn is the Director of Value Based Care for the Houston Methodist Coordinated Care (HMCC) accountable care organization. He is responsible for implementing strategic clinical and quality initiatives to increase value and drive cost savings within an Enhanced Track Medicare Shared Savings Program. Dr. Menn also leads teams of outpatient nurse care managers responsible for care coordination and development individualized patient care plans. The nursing teams outreach to high risk patients across many different population health payer programs and value-based contracts to improve overall health and reduce the risk of admission, readmission and ED utilization. Dr. Menn also leads the ACO's Post-Acute efforts working to reduce overutilization of Post-Acute Facilities and Home Health, while improving communication and patient outcomes across the care continuum.
