In 2015, another hospital's medical error resulted in the untimely death of her otherwise healthy husband and father of her young children. She shares her story whenever possible with fellow healthcare workers to raise awareness of the stories behind the data. Her mission is to ensure that her colleagues understand the impact of their daily decisions and for patients to be in the best position possible to advocate for themselves and for their families.

Jeanna holds an MBA from the University of Houston—Clear Lake. She was elected in 2020 as Southeast Texas Regent for American College of Healthcare Executives and also serves as a member of the Texas Healthcare Trustees Board of Directors. She is a graduate of the Texas Hospital Association Leadership Fellows Program and is a member of Pasadena Rotary Club, Deer Park Chamber of Commerce Board of Directors, and Greater Houston Women's Chamber of Commerce Small Business Alliance. She is a strong believer in servant leadership and is heavily involved in community service while also encouraging her staff of 1,500 employees to do their part in helping build strong ties with local communities.

Jeanna and her husband, Wesley, are the parents of two teenage children. In her leisure time, Jeanna enjoys international travel and the pursuit of growing the perfect vegetable garden.
