

FIGHT CANCER

Gury Doshi, M.D.

Specialty

Medical Oncology and Hematology

General Summary

Dr. Doshi is a board certified medical oncologist and hematologist who treats various cancers including breast cancer, lung and colon cancer as well as other cancers. In addition, she treats benign and malignant blood disorders.

Prior to joining Texas Oncology in 2010, Dr. Doshi was an assistant professor in the Division of Oncology at The University of Texas in the Texas Medical Center.

Research

Dr. Gury Doshi is associate chair of the genitourinary committee of US Oncology Research.

She joined the genitourinary committee program in 2012 and has quickly risen as a leader serving as US Oncology Research principal investigator for multiple studies and as a top enroller to clinical trials year after year.

Her special interest is in treatment of genitourinary tumors; prostate, kidney and bladder cancers. She conducts clinical research trials at her Memorial City office. Her research publications include a review on sequencing therapies in metastatic renal cell carcinoma, and the use of morphoproteomic analysis to determine selection of therapy in kidney cancer.

Professional Education

- **Fellowship in Hematology and Oncology** – Chief Fellow, Josephine Ford Cancer Center, Henry Ford Health System, Detroit, MI
