

Kurt Neubek, FAIA, EDAC, CSSBB

Healthcare Director - Page

ACHE Subject – Lean Design and Construction

Kurt Neubek is a Principal with Page, a 1400-person architecture/engineering/interiors/planning/consulting firm with 21 offices across the US and abroad. He has over 30 years' experience and has programmed and planned tens of millions of square feet of space across the globe. Kurt is an award-winning speaker, having presented at more than 130 national and regional conferences. He is a Fellow in the American Institute of Architects, a Certified Facility Manager, LEED Accredited, Evidence-based Design Accredited and Certified, and a Six Sigma Black Belt. He is also an instructor for the Lean Construction Institute and for the Construction Owners Association of America where he helped to create the Lean for Owners course.

Kurt met his wife Deb when they attended architecture school at the University of Illinois. They have a 25-year old son, Grant. Kurt was a scout leader for 18 years and is currently an active member in the global solar cooking community, designing and testing a wide range of solar cookers.
