

Bryn Rod participated in the Hospital Administration Internship at Memorial Hermann - Katy, where she gained invaluable hands-on experience in the healthcare sector from June to September 2024. During her time in this role, Bryn developed a comprehensive understanding of hospital operations, ranging from managing patient care workflows to optimizing administrative processes. This experience was instrumental in honing her problem-solving abilities, enhancing her capacity for team collaboration, and sharpening her strategic planning skills. Through these efforts, Bryn gained critical insights into the complexities of healthcare management, laying a solid foundation for her future career in the field.

A recent graduate from Texas A&M University, Bryn earned a Bachelor of Science in Agricultural Business in December 2023. Her academic background provided a strong business foundation, which she is now building upon by pursuing an MBA at the University of Oklahoma. This advanced degree will further equip her with the knowledge and skills necessary to navigate and excel in the dynamic and ever-evolving healthcare industry. Bryn's dedication to both her education and professional development reflects her commitment to making a meaningful impact in healthcare administration.
